

Co-op, Graduate and Summer Employment

2015 Job Fair Employer Guidebook

Wednesday, January 21, 2015
Recreation Centre, Doon Campus
10 a.m. to 1 p.m.

CO-OP &
CAREER SERVICES

Student Life Centre
Room 1A105, Doon Campus

For any questions about the
Job Fair event, call ext. 3756.

Maximizing Your Opportunities!

- Why should you attend the On-campus Job Fair?
 - ⇒ Job opportunities
 - ⇒ Information on career trends in your field
 - ⇒ Employer research and information
 - ⇒ Networking
 - ⇒ Practice speaking about your skills, abilities and related education

On Fair Day....

- Bring an updated resume and consider developing a cover letter specifically tailored to employers that interest you. Have your resume and cover letter critiqued by a Co-op Advisor prior to the On-campus Job Fair. This will ensure that you are handing out quality résumés. Employers expect to see resumes that clearly outline your key qualifications, educational background and employment/clinical/volunteer history.
- Make a good first impression! You should be dressed in professional attire—similar to the way you would dress going to a job interview. Practice etiquette: don't drink coffee or smoke right before speaking to an employer.
- Do your homework! Research the attending employers by utilizing the Employer Guidebook. Have something relevant and interesting to say when you speak to them. Take a walk around the exhibits before making verbal contact. This will assist you in mentally preparing to speak to employers. Remain focused and enthusiastic.
- Give yourself plenty of time to visit the employers that interest you.
- Conduct your visits on your own rather than walking around with friends. Approaching employers on your own looks professional and confident, and maximizes your chances of networking effectively.
- Be patient and courteous. Offer your hand for a (firm!) handshake, make eye contact, smile, and be sure to get the contact's business card for follow-up.
- Be considerate of the fact that others are waiting to talk to the employers and they want to meet as many people as possible. Be interesting, informed and brief. Prepare an interesting "commercial" about yourself. This will enable you to move swiftly through the Fair, networking with as many employers as possible.
- Be yourself, be friendly, and have a good time! Talking about your abilities, skills and education can be uplifting and exciting.

Sales Engineering Track Ready – SET – Go!

What is the Sales Engineering Track Program? Ready, SET, Go! is a program for an exciting career path in technical sales. It consists of various phases that further your education, bring you experience in a wide range of fields and bring you closer to your career goal. This will give you the opportunity to learn all aspects of high-value technical selling while preparing you in an optimal way to be successful in the job.

Who is it for? ...if you are an engineer that is at the beginning of their career or wants to change career paths ...if you not only understand complex technical aspects but have a knack of explaining them to others ...if you are outgoing and like to interact with people ...if you want to stay on top of leading edge technology and want to work with a wide range of other engineers and companies ...if you want to kick-start your career into a fast growing industry with a bright future outlook

Our Commitment... We will give you a 1st class application engineering training in E-camp. We will make sure you spend at least half a year with interesting application and support tasks that will give you experience. You get to experience different areas, such as different locations, different departments, and HQ in Austria. You are assigned a mentor who is always there for you and accompanies you throughout the program. If you find that the program is not for you, you will have the possibility to change paths. You will get consistent feedback on your progress. You will get a 1st class sales education through the Sales Camp. We will pay for an external sales training course.

Programs: Robotics and Automation Technologist; Mechanical Systems Engineer; Electrical Engineering; Mechanical Engineering (Mechatronics is the target area)

You are committed to ensuring that the physical and emotional wellbeing of clients are met, and you bring a dedicated client-first attitude to this important role.

Part-time opportunities available

Baywood Interior Millwork

55 Hollinger Crescent
Kitchener, Ontario, Canada, N2K 2Y8
Contact: Joel Rorke, Operations Manager
Email: joelr@baywoodinteriors.com
www.baywoodinteriors.com

Our Company History: Founded in 1994 by Don Brown, Baywood Interiors Ltd, is a twenty year old Architectural Millwork, and Store Fixture Company. The company changed ownership in May.2007, and continues to thrive and grow under the new management of John D. Lassel, a Conestoga College Alumni.

Currently 40% of our employees are Graduates of Conestoga Colleges Woodworking Programs.

What we do: We serve the construction industry in the industrial, commercial, and institutional sectors. Located in Kitchener, ON, At 55 Hollinger Crescent, Baywood Interiors Ltd, offers a full-fledged design, engineering, manufacturing, and installation service of custom woodwork and store fixturing. Our experienced staff provides professional millwork services throughout Canada, and North Eastern USA.

What we are looking for: Fresh, new, hardworking talent, with a proactive, can do attitude. While an employee's skill set and education is vitally important to our success, this must be combined with a great attitude.

What we offer: Competitive wages, and a benefits program. A safe, clean, and modern work environment. We also like to have fun with company outings, Plant BBQ's, Annual Christmas Parties etc....

Why should you work for us: Under new ownership, we are aggressively diversifying our client base, expanding our need for new employees, equipment, and space. This is a place where you will enjoy coming to work, never be bored, and offers an opportunity for both professional and personal growth.

How to apply: • Resumes can be dropped off at the booth today • Fax to 519-748-6563 to the attention of Joel Rorke, Operations Manager • Email to joelr@baywoodinteriors.com

We wish all Conestoga College Woodworking Students the very best of continued success.

With over 3,000 employees, Christian Horizons is a Christian organization that serves people with Developmental Disabilities in over 300 locations throughout Ontario.

Christian Horizons seeks competent employees who have the skills, experience and character needed to deliver effective supports to people with developmental disabilities. We seek employees who are excited about our mission and desire to enhance the lives of people we support. We believe everyone has a unique purpose and unique gifts to share – we serve the person with exceptional needs.

Applications are currently being accepted for the position of DIRECT SUPPORT PROFESSIONAL.

Direct Support Professionals assist people with developmental disabilities to find a satisfying and purposeful place in their community by enhancing their quality of life and promoting personal growth. Direct Support Professionals foster community inclusion, assist with activities of daily living, promote the implementation of person-centered plans, and may also assist with aspects of personal care. Ideal candidates have education and experience in Developmental Services or a related field. A Developmental Service Worker Diploma is a preferred qualification, as is First Aid/CPR and Non Violent Crisis Intervention certifications. Candidate is required to have a valid Ontario “G” Driver’s License. Computer literacy and a commitment to a respectful and person-centered approach are essential assets. A preferred asset also includes proficiency in speaking/reading French.

All persons may apply regardless of religion or any Human Rights Code protected grounds. Applicants must apply ONLINE, attaching a resume and cover letter: <http://webapps.christian-horizons.org:9985/resume/westapplicationform> Attention: Recruitment and Employee Relations

www.fusionhomes.com

About Fusion Homes: Exceeding industry standards is all in a day's work at Fusion Homes. Each Fusion Home is built on a solid foundation of integrity, constant improvement, dedication and excellence. Going above and beyond for each and every client has made Fusion Homes an industry leader. As part of our commitment to you, we ensure that each step of the home-building process is as stress-free, transparent and as simple as possible.

We Never Miss a Closing Date "There are many reasons why Fusion Homes has never missed a closing date. We refuse to settle for the bare minimum, by building the best product for the best price without exception. We follow through on our promises and are true and honest people. Our homeowners are proud to be part of the Fusion Homes family." - Fusion Homes President Lee Piccoli. Service and Support Never missing a closing date is just the beginning. In fact, we have some of the most extensive quality control checkpoints in the business, ensuring each new home represents the highest standard of modern construction. Our after-sales service program is designed to give all homeowners easy access to the finest quality professionals available.

Guiding Principles Creating communities in Guelph, Kitchener, Waterloo, Tillsonburg, and London, that boast security and comfort, from carefully-controlled streetscapes to luxurious interiors, is a skill stemming from the Fusion Homes set of values: • Pride in workmanship • Co-operation with co-workers • Constant improvement We're never complacent, we're always willing to learn. This unique attitude has earned us multiple awards on local, provincial, and national levels.

Programs: construction space (mainly carpentry and renovations), Architectural Technology, and interior design.

Full-time, contract, summer and co-op opportunities available

Guelph Independent Living

207-255 Woodlawn Road West
Guelph, Ontario, Canada, N1H 8J1
Contact: Carla Henderson, Communications & Privacy Officer
Email: carla@guelphindependentliving.org
www.guelphindependentliving.org

Guelph Independent Living (GIL) is a non-profit agency incorporated under a different name in 1975. It advocated the reduction of barriers to community inclusion on behalf of adults with physical disabilities and supported the choice of its clients to remain in their own homes. Within ten years, GIL began providing Attendant services in Assisted Living and on an Outreach basis. The Agency's mandate expanded in 2006 to include a homemaking program for seniors and persons with disabilities. Today, GIL provides a variety of support services to adults with physical disabilities and seniors who live in their own homes in the community, ranging from 24-hour emergency services to help with grocery shopping and laundry. Its programs include Assisted Living, Attendant Outreach, Home Help, and Seniors Supported Living, as well as recreation and inclusion opportunities for its 230 clients.

GIL contributes to the community by decreasing emergency room visits, supporting early hospital discharges, relieving the need for long-term care, enabling independent living, providing recreation activities and unburdening primary caregivers. Additionally, it helps to stimulate the local economy by creating jobs and building partnerships that mobilize community resources for its clients.

Your role at Guelph Independent Living is to respect and support clients while providing assistance with daily living according to self-directed care and personal choices. The amount and type of assistance that you provide will vary greatly from client to client. Some clients will need minimal assistance with one or two activities, others with all. You won't provide assistance with medical procedures, regardless of any professional training you have. You will assist adults with physical disabilities and/or frail seniors to live independently and perform tasks like:

Transferring/positioning/turning; Dressing/undressing; Washing/bathing; Toileting; Feeding;

Housekeeping (light); Preparing meals; Following through on programs developed by an occupational therapist, physiotherapist, and/or speech therapist.

GIL values respect, dignity and individuality by promoting freedom of choice and by encouraging the individual's right to make decisions, to direct services and to establish and maintain personal lifestyles. The Agency believes in fostering community participation, removing barriers and providing information, advocacy, and support services. GIL hires valuable people. Are you ready for us?

Part-time opportunities available

HInext

67 Mowat Avenue, Suite 335
Toronto, Ontario, Canada, M6K 3E3
Contact: Toni Giordano, Office Manager
Email: toni.giordano@hinext.com
www.treatehr.com

TREAT is a web-based patient management and electronic documentation system tailored for use by clinicians treating clients with mental health or addictions issues. The software was designed in co-operation with a large behavioral health teaching and research institution and incorporates a design that is based on the revolutionary recovery model of care.

This uniquely designed system provides an integrated approach to care, with best practice assessments linked to a robust care planning module at its core.

The TREAT Synthesis Reporting software supports measurement of patient outcomes using objective peer-reviewed systems of measurement, and closely matches the needs of participants in US programs such as Accountable Care Organizations, Meaningful Use participants, or contracted service providers.

TREAT supports a variety of provider environments, including outpatient, inpatient, and day program, and offers a unique solution for integrated care delivery and care coordination among multiple providers.

TREAT is a modern software system and is provided as a service to our customers over the internet. This trouble free environment reduces capital costs and produces savings or benefits that make it a net positive investment for the customer. It has been architected to allow a low cost, high availability performance. TREAT is a modular system and can be implemented incrementally or with single comprehensive installation. It can be implemented as a white labeled or branded solution and it has been developed by a company with more than 10 years' experience in the field. TREAT is the clear choice for an EHR system among behavioral health providers.

Hitachi Construction Truck Manufacturing Ltd.

200 Woodlawn Road West
Guelph, Ontario, Canada, N1H 1B6
Contact Information Withheld
www.hitachi-c-m.com

Founded in 1910, Hitachi LTD has a broad spectrum of services and products that range from Elevators, Bullet Trains, Construction Machinery, Beauty Products, Power Tools, Ultrasonic Equipment, Home Appliances and many others.

*We are located in over 27 Countries and employ over 20 000 people * Globally Hitachi Ltd. employs over 240 000 and has consolidated net sales over 774 Billion *We are securely funded and supported by a global entity * We have the facilities, tools and technology to ensure you have the best possible environment to focus on your tasks * Hitachi is a globally recognized company, with capability to strike the interest of any potential customer * Opportunities for exposure to global processes, practices and potential travel

Hitachi Construction Truck Manufacturing, Ltd. (HTM) Canada is a subsidiary of Hitachi Construction Machinery Co., Ltd. (HCM) Japan.

HCM's mining product line consists of large hydraulic excavators and off-highway dump trucks to be used in surface mining and large scale construction projects all over the world. At our HTM location in Guelph Ontario, we produce off-highway dump trucks ranging from 65 to 320 tons in payload carrying capacity.

HTM is responsible for the design, manufacturing and distribution of high quality, long lasting off-highway dump trucks. To achieve high quality and long product life, excellent product designs, quality standards and processes as well as after sales support are fundamental.

A key difference to Hitachi Construction Truck Manufacturing, Ltd. is that we are more "factory to customer", meaning we are structured to: commonly custom manufacture * provide for and support the customer spare parts business * provide product support from machine delivery to end of life, through global distribution channels *specify machine model and required options according to customer job profiles

Our business is lasting and strong, with over 40 years at the Guelph location employing dedicated and skilled employees.

Areas of Employment:

Hitachi Truck Manufacturing Ltd. is made up of many positions that fall under these departments: Engineering; Manufacturing; Product Support; Production Control; Procurement; Quality assurance; After sales parts; Information technology; Human Resources; Transportation and Customs; Sales and Marketing; Finance

We are accepting resumes. Please direct them in confidence to HR@hitachitruck.com

IMT Corporation

5 Cherry Blossom Road, Unit 1
Cambridge, Ontario, Canada, N3H 4R7
Contact: Goran Dulava, Human Resources
Email: gdulava@imtcorporation.com
www.imtcorporation.com

In 1914, E.A. Wilson opened Ingersoll Machine & Tool in a small Ingersoll factory originally built to produce soap. Thus began a journey through time marked by passion, commitment, innovation, integrity and growth. Originally, Ingersoll Machine & Tool specialized in manufacturing steering gear assemblies for boats and cars. By the early 1930's, IMT made the steering gear assembly for every Canadian-built Ford, Mercury, Dodge, Chrysler, DeSoto, Plymouth, Hudson and Nash car produced.

Driven by a passion for excellence and fuelled by the success it creates, the company expanded by leaps and bounds and, in 1947, IMT evolved from a privately owned enterprise to a public company listed on the Toronto Stock Exchange.

The next major shift in ownership occurred in 1970 when Ivaco acquired a majority interest and provided the means for major expansion. IMT achieved a major milestone in 1981 when it was awarded a 10-year, \$100-million federal contract to produce large caliber ammunition shells. That contract enabled the company to purchase PC Forge shortly thereafter and, with assistance from the City of Ingersoll, IMT built a large new manufacturing complex the following year.

The ensuing years were characterized by continued innovation and expansion. And as capabilities grew and became more diverse, so too did the ability to meet the needs of customers in the transportation, OEM and Defence industries worldwide. Ours is a history rich in success and achievements, and it's a history that we will continue writing in the years to come.

KW Habilitation

99 Ottawa Street South
Kitchener, Ontario, Canada, N2G 3S8
Contact: Human Resources
Email: humanresources@kwhab.ca
www.kwhab.ca

KW Habilitation is a local not-for-profit organization that provides a wide range of individualized services and supports to children and adults with developmental disabilities in Kitchener- Waterloo. Starting with the early learning years and our preschool services, KW Habilitation can be there along the way throughout life's transitions supporting persons in pursuing their goals and dreams such as graduating school, creating a home, looking for work, making friends or looking towards an active retirement. A good life (habilitation) is fostered through our preschool and early learning supports, respite services, residential services, community participation programs, and employment supports.

Our work is guided by our Vision Statement: "A community where everyone belongs and participates" and by our Mission Statement: "Together with families and the community, KW Habilitation provides services and supports to create opportunities for people with developmental disabilities to learn, work and live in the community". One of our primary Strategic Directions is Celebrating Abilities and Realizing Aspirations and Dreams.

KW Habilitation was incorporated in 1971 and has over 500 employees who provide services and supports to approximately 1,000 individuals and their families.

Our employment opportunities are posted on our website www.kwhab.ca (under the "careers" tab).

Support Workers (Developmental Services) We regularly review resumes/applications for Part-Time/Relief Support Worker positions. We welcome candidates with at least some Post-Secondary Education in the Human Services as well as direct or related experience working with people with

intellectual disabilities. (A completed degree or diploma is not required for these openings.) These roles typically involve weekend work and are great opportunities for students to gain valuable paid experience while attending school and in between semesters! These positions also provide an excellent stepping stone to full-time careers in the developmental services field.

Early Learning Career Opportunities Our Early Learning Program provides enhanced staffing and consultative expertise to licensed early learning centres throughout the Region of Waterloo. Our role in each of these settings is to provide special needs resource services to children and professional staff. Providing a child-focused approach in our early intervention supports, our goal is to work collaboratively with our community partners to ensure that the inclusive environment meets the adaptive needs of the child. Early Childhood Educators and Resource Teacher graduates are encouraged to check our job postings on a regular basis for opportunities to be part of our exciting team of early learning professionals.

Volunteer and Student Placements - Our Volunteer and Student Placement Program provides individuals with the opportunity to gain valuable work place experience in the human services field. Based on individual interest, volunteer and student placements are provided in our Early Learning and Adult Support Programs. Working with our Volunteer and Student Placement Coordinator, selected individuals will be offered a placement to suit their needs as a student or volunteer participant.

Visit our website: www.kwhab.ca for more information about KW Habilitation and our career opportunities!

Summer, internship and co-op opportunities available

R&W Metal Fabricating and Design Inc.

54 Spalding Drive, PO Box 8
Brantford, Ontario, Canada, N3T 5M3
Contact Information Withheld

R&W Metal Fabricating and Design Inc., located in Brantford, Ontario, is a designer and manufacturer of steel material handling and shipping racks, containers, dollies and advanced fabricated metal products supplying the glass and automotive industries.

Due to continued growth, R&W is seeking qualified candidates for the following positions.

While candidates looking for full time employment are preferred, R&W is open to the possibility of summer, part time and co-op applicants.

Purchasing and Inventory Control Administrator (Full Time) The successful candidate will be responsible for project materials from requesting quotes (RFQ) through to readying them for use in manufacturing of the finished product. Qualified candidates must be able to read customer supplied or internal CAD drawings and calculate required quantities from bills of materials for each product. This role involves hands-on materials management in the production environment as well as administrative duties in the office, and requires strong organizational skills and flexibility. Applicants with design and CAD experience are preferred. Experience with steel products and hardware is considered an asset.

CAD Designer (Full Time/Summer/Co-op) The successful candidate will be responsible for the preparation and development of engineering designs using Solidworks and will play an integral role in developing designs from concept and managing them through prototype and into final products for customers. This role involves hands-on input with the prototype department and experience with steel products and hardware is considered an asset. **Customer Service Sales Assistant (Full Time)** The successful candidate will be responsible for assisting sales staff with the management of automotive customer accounts with both technical and administrative duties. Qualified candidates must be able to understand customer supplied or internal CAD drawings and will have some experience with CAD software (Solidworks an asset). The ideal candidate will be able to manage both design and customer service responsibilities. This role will allow for future growth either in design or in sales.

Quality Control Administrator (Full Time) The successful candidate will be responsible for applying existing quality principles (ISO9001), policies and procedures primarily within the manufacturing environment to ensure all products meet or exceed internal and customer requirements prior to shipment. This includes constant in-process checks and measurements for conformance, creation and implementation of new product-specific guidelines and work instructions and more. Qualified candidates must be able to read and understand CAD drawings, use different kinds of precision measuring devices, and have excellent record-keeping habits. The ideal candidate will have steel manufacturing experience and a strong quality background with a keen eye for detail.

Welders, Machine Operators & General Labourers (Full-Time, Part-Time, Summer, Co-op) The successful candidates will be responsible for completing assigned duties in their specific field and area of the plant, and will have previous experience in a steel manufacturing environment.

All positions are various stages of direct hands-on manufacturing of product and require high productivity levels while retaining quality workmanship. All relevant related experience will be considered an asset. This role allows for future growth throughout all areas of the company.

Full-time, part-time, contract and co-op opportunities available

Region of Peel, Purchasing Department

10 Peel Centre Drive
Brampton, Ontario, Canada, L6T 4B9
Contact: Beth Lefebvre, Administrative Assistant
Email: beth.lefebvre@peelregion.ca

The Region of Peel serves 1.3 million residents and approximately 88,000 businesses in Brampton, Caledon and Mississauga. The Purchasing division is made up of Purchasing staff who procure goods and services on behalf of the Region of Peel and Peel Regional Police. The Region of Peel spends millions of dollars annually on a variety of goods and services. The purchasing by-law governs the manner in which these purchases are to be made and procedures and guidelines have been developed to assist purchasing staff and their clients. Peel Purchasing is committed to open, fair and transparent procurement practices to achieve best value for money in the stewardship of public funds. The Purchasing department will provide any student or new graduate a wide variety of procurement experience.

As a Purchasing Buyer you would coordinate and/or prepare purchasing documents, contracts and agreements for corporate, client and program goods and services including purchase method coordination, evaluation of vendor document responses, award recommendations and post award contract or agreement coordination with clients. Other responsibilities would include:

- Select and coordinate the appropriate purchasing method for a range of goods and services including corporate, program and customer requirements; perform evaluation of vendor document submissions and award or recommend award in accordance with Purchasing By-Laws, policies and procedures.
- Provide vendor management support including sourcing, evaluation and resolution of supply performance or service problems.
- Provide support and back up to designated purchasing staff as required from time to time.
- Provide support to clients directed at resolving vendor performance issues or concerns recommending and implementing appropriate resolutions.
- Provide client and vendor contract and agreement support on an 'as required' basis including the coordination of request for tenders or quotations for supply of goods and services, renewal of contracts and agreements, encouraging the use of purchasing cards and provide client support.
- Provide input into policies and procedure on an as required basis.

Please stop by and talk with one of our Purchasing staff about some exciting opportunities.

Sun Life

22 Frederick Street, Suite 400
Kitchener, Ontario, Canada, N2H 6M6
Contact: Chris de Ruiter, Sales Manager
Email: chris.deruiter@sunlife.com
www.sunlife.ca

Sun Life Financial advisors share a proud 140-year history of providing financial security solutions to millions of Canadians. Sun Life Financial advisors sell health insurance, life insurance and investments

to individuals and groups. In this way, they enjoy meaningful work by helping to ensure the financial health of their clients.

You will work to attain new clients on a day-to-day basis through prospecting, and meeting with people to complete financial needs analysis. It will be your responsibility to implement your suggestions through the sale of life insurance, health insurance, wealth accumulation and savings products offered by Sun Life Financial, and to provide ongoing financial advice to your clients.

A client focused, holistic approach to selling will build your credibility and help you gain the trust of the people you serve, and provide them with unique advice that aligns with their circumstances. As a Sun Life Financial advisor, you'll have the opportunity to grow and build your own financial services practice, enjoy independence, freedom, flexibility, and recognition for your successes. Success in investment and insurance sales takes hard work, dedication, commitment to ongoing learning and professional development, and a passion for helping others. Your career is limited only by how much you are willing to put into it.

Trimaster Manufacturing Inc.

95 Curtis Drive
Guelph, Ontario, Canada, N1K 1E1
Contact: Coreana Yantha, Human Resources
Email: cyantha@trimastermfg.com
www.trimaster.precinmac.com

Trimaster Manufacturing Inc. Established in Guelph in 1974, Trimaster has grown from a small start-up to one of Guelph's leading machine shop manufacturers. Trimaster employs over 300 people in Guelph, Oakville and Springfield Massachusetts. Trimaster specializes in CNC machining and assembly servicing a growing, diverse, global customer base.

Our success is driven by three factors, the right people, the right processes and the right equipment. Our focus as both individuals and business is to have a vision, a plan and the ability to execute. These parameters allow us to compete globally, we sell our products in Canada, the USA, Mexico, China, India, Brazil and Europe. How many North American manufactures today can make that claim!

The Difference Trimaster differs from other area machine shops because we manufacture low batch size, medium to high complexity parts for many industries. This exposes us to a variety of materials, geometries and processes giving our employees a much broader scope of experience and knowledge. Trimaster is committed to employee development as part of our success.

Tailored training program focusing on skills needed to advance to the next level: Dedicated trainer on staff * Operation management are skilled tradesmen * Provincially regulated apprenticeships * Company paid continuing education.

Positions: Manufacturing Engineers -CNC Programmers -CNC Set-up Technicians -CNC Machine Operators -General Machinists -Assemblers

Woodbine Entertainment Group

555 Rexdale Blvd., P.O. Box 156
Toronto, Ontario, Canada, M9W 5L2
Contact: Ann Basile, Security Services
Email: abc@woodbineentertainment.com
www.woodbineentertainment.com

Founded in 1881, Woodbine Entertainment Group (WEG), formerly the Ontario Jockey Club, is the largest operator of horse racing in Canada. With established best-practices in integrity and safety, WEG has solidified its position as a world-leader in the sport of horse racing. Approximately eighty per cent of Ontario's pari-mutuel wagering is through WEG's distribution network. WEG is the engine which drives Ontario's horse racing industry which generates 60,000 jobs within the Province's agricultural sectors.

Some will begin their work day at sunrise by feeding, grooming or galloping horses on the backstretch. Others will end their day well past sunset by serving customers in the dining rooms, printing tomorrow's race programs, or volunteering in the community. Working independent of one another, yet together as part of a greater team, they all share a common goal and a powerful, passionate bond: to meet the needs of customers and stakeholders alike. They are our employees - the custodians of our values and the champions of our strategies.

All WEG employees conduct themselves with four core values: integrity, respect, excellence and accountability. It is our responsibility to employees to attract and retain a highly-skilled workforce by providing a dynamic, supportive and equitable workplace experience and creating a safe and healthy work environment focusing on accident prevention and risk reduction.

We provide employees with a wide range of both job-specific and developmental training opportunities. As importantly, we are steadfast in our commitment to foster an engagement culture where each and every employee can play an active role in shaping our economic, social and environmental sustainability success.
