Aecon Industrial Overview

Aecon Industrial provides unsurpassed construction and EPC capabilities across the utility power spectrum, including nuclear, hydro-electrical, fossil and natural gas power plants. Maintenance and capital improvement projects to power generation facilities are a key part of its field construction services.

In addition to the turnkey construction of cogeneration facilities, Aecon is known for the pioneering of prefabricated piping services to better manage site labour and the integration of specialized coating systems into the fabrication process.

Aecon Industrial is a market leader in: engineering, procurement, construction and maintenance for nuclear and non-nuclear power, oil & gas, petrochemical, steel and the auto sectors.

Aecon Industrial, a division of Aecon Construction Group Inc.
